Third-year

## 💼 Experience

### Web masters

15-2-2024 - 22-4-2024

Frontend developer

Gained hands-on experience in frontend development by working on real-world projects.

Collaborated with a team of developers to design and implement user-friendly and responsive web interfaces.

Utilized modern tools and frameworks, including React, Bootstrap, and Tailwind CSS, to build dynamic web applications.

Enhanced problem-solving and debugging skills while meeting deadlines and project requirements.

Learned industry best practices and worked under the guidance of experienced professionals to improve code quality and efficiency.

## 👤 Skills

Html

Css

JavaScript

Php

React

Laravel

Tailwind css

Bootstrap

Version Control: Git, GitHub

API Integration: RESTful APIs, Axios, fetch Api

Soft Skills: Collaboration and Teamwork Time Management

## 🕒 Project

### Calculator

Technologies Used: HTML, CSS, JavaScript

Designed and developed a responsive calculator with an intuitive user interface.

Implemented essential mathematical operations (addition, subtraction, multiplication, and division).

Utilized JavaScript for dynamic functionality and ensured smooth interaction.

Optimized for both desktop and mobile devices.

project repo: <https://github.com/xXyousefXx6768/calculator>

## E-Commerce Website

Technologies Used: HTML, CSS, Bootstrap, React.js, Fake API

Built a fully functional e-commerce platform with a modern, responsive design using Bootstrap. Integrated product listings from a Fake API and implemented features like product filtering and a shopping cart.

Utilized React for dynamic components and seamless user experience.

Focused on accessibility and cross-browser compatibility.

project repo : <https://github.com/xXyousefXx6768/e-commerce>

## Chat app

Chat Application

Technologies Used: HTML, CSS, React.js, Firebase

Developed a real-time chat application with user authentication and message storage using Firebase.

Designed a user-friendly interface with responsive layouts for seamless communication on any device.

Implemented React for component-based development and state management.

Ensured secure and reliable data transfer through Firebase's real-time database.
